

# DISCOVER SAPPHIRE

Manage your Girbau vended laundry remotely.

[SAPPHIRE.GIRBAU.COM](https://sapphire.girbau.com)

# HOW SAPPHIRE WORKS

A single **Sapphire Connectivity Box** is enough to connect all the Girbau machines in your laundry.

This device connects your laundry immediately to the **Sapphire cloud** where the information is processed.

Using the **Sapphire web platform** you can monitor, control and configure your laundry.

# MAIN BENEFITS

## MONITORING YOUR BUSINESS

View your personalised indicators so that you can know at a glance whether your laundry is working properly or needs your attention.

## MAXIMISE YOUR REVENUE

Use a series of ready-made reports to assess in which time slots your laundry has least traffic, in order to decide on possible promotions. Be aware of which programmes and extra options are used the least and set the right price to maximise your revenue.

## CUT IDLE TIMES

View the status of each of your machines in real time and if one of them sets off an alarm, see the details of the problem, its cause and a possible solution.

## AVOID UNNECESSARY TRIPS

Use the activate programme and put machine out of service functions remotely to solve any problems your clients may have, wherever you are.

# Sapphire for owners of vended laundries

## Turnover

Monitor your laundry's turnover remotely in real time and using its history. The calculation is made according to the prices entered for each machine and programme

## Production by cycles

Check your laundry's turnover and number of cycles in real time, including data for each machine. Compare this with the historical average of cycles or turnover

## Machine alarms

Check machine down times. Check a history of alarms, causes and possible solutions. Set up and receive notifications via sms and/or email when a selected alarm is tripped.

## Machine status

Check whether your machines are available, working, pending to be unload, disconnected, out of order or with an alarm active.

## Machine manuals

Consult the specific manuals for each model of your machines easily to take full advantage of their features.

## Activate programme

Avoid unnecessary trips Sapphire enables you to remotely activate a washing, drying or spinning programme for your client, free of charge.

## Put a machine out of service

Avoid unnecessary trips. Sapphire enables you to put a machine out of service remotely when you do not want it to be used, so avoiding subsequent problems. You can also make this machine available again, also remotely.

## Cycles and turnover target

Set targets for your laundry to see whether your business is performing as you expect it to.

## Reports on programmes used

Find out which programmes and extra options are used the most by your clients. Analyse each machine and/or time period to get the most out of your business. On the basis of this, create a price strategy to maximise your profits.

## Contact the technical support service

If an alarm is tripped on a machine, or if you have any other needs, get in touch with the technical support service directly, by telephone or email.

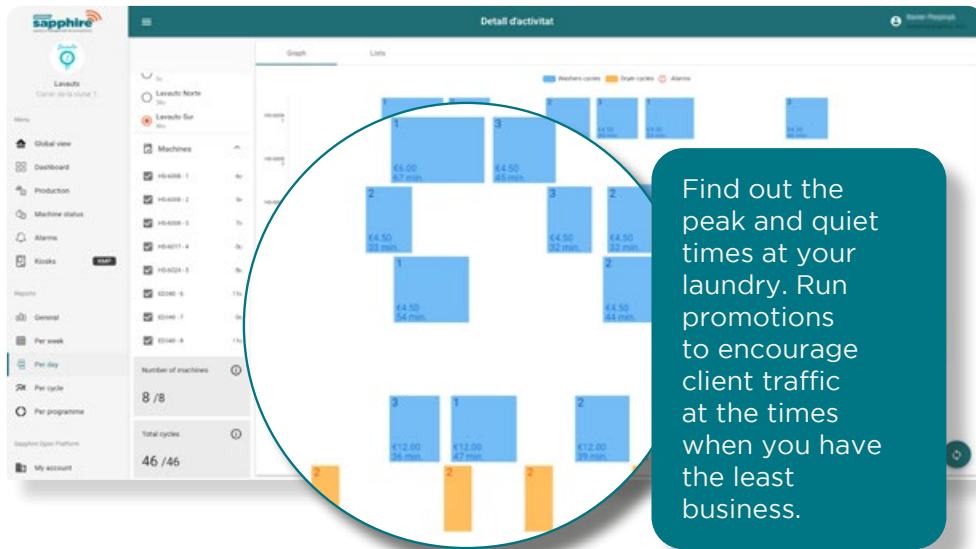

Personalise your most important indicators and see at a glance whether your whole business is performing as you expect it to.

See in real time, wherever you are, whether your machines are working.

Consult details of alarms, causes and possible solutions.

View graphically, by day, week and month, how your business is going in terms of cycles and turnover.

*Girbau is a multi-national corporation that has cemented its position as one of the global leading groups in the manufacture of innovative solutions for the world of laundry. The goal of Girbau is to create maximum value for its customers, supporting them in their professional growth.
